KEY PRODUCT LIST

English Version

**CHEMISTRY BEHIND
GOOD FEELINGS**

SR. NO.	PRODUCTS	DESCRIPTION
1	Acidon-PA	A 100% concentrated product based on sliding pH principle for polyamide.
2	Biofeel-PST (Conc)	A concentrated acid cellulase enzyme for biopolishing.
3	Careguard-66 (New)	A fluorocarbon based on C6 chemistry with high performance for oil and water repellency.
4	Careguard-FF / Ecoguard-SYN (Conc)	Fluorine-free water repellents.
5	Catfix-511	A cationising agent for pigment dyeing.
6	Caresoft-809 (Conc)	An outstanding concentrated hydrophilic silicone which imparts very soft handle with hydrophilicity.
7	Carewhite-PAS	A high light fastness optical brightening agent for polyamide.
8	Eliminator-GLO	A speciality product to overcome oligomers deposits in the dyeing of polyester fibre tops and yarn in package form.
9	Estofeel (Conc)	A new generation easily dilutable product in pellet form which passes Nike and M&S wicking test for moisture management on synthetics.
10	Fixanol (Conc) / Saradye-FN	A high quality formaldehyde free dyefixing agent for reactive/direct dyes.
11	Moisture-Guard	A cost effective concentrated product which passes Nike and M&S wicking test both for cotton and polyamide at 5-10 g/l.
12	Sarafix-New	An acid stable dyefixing agent for polyamide especially for light and pastel shade.
13	Nylofix-993	A powder version cost effective dyefixing agent for polyamide.
14	Quench-APY / LCL	Excellent products to prevent phenolic yellowing of lycra, polyamide and polyester fabrics.
15	Reducon-ACD (Conc)	An unique acid reduction clearing agent (in powder form) to replace caustic & hydrosulphite.
16	Rubfast-425	An unique problem solver to improve wet rubbing fastness.
17	Sarabloom- SL / 2951	Colour blooming agents for all type of fabrics.
18	Saradye-PLE	A special formulation to improve fastness to chlorinated pool water for cotton.
19	Saraguard-5700 / AM (Conc)	A silane based antimicrobial finishing agent durable to multiple home laundering.
20	Sarasol-1101	An innovative auxiliary for enhancing colour value and sharpness in digital printing.
21	Sarawhite-CR	A high quality optical brightening agent for acrylic.
